Weight:	37.700kg

Efficient Handling. Faster Deployment.

The Giant Truss Transport Trolley is designed to streamline barricade movement during large-scale installations and breakdowns. Built for durability and balanced load support, it enables safe stacking, organized storage, and smooth on-site mobility. Ideal for touring productions and high-volume event logistics.

Mobility Built for Heavy Operations

Engineered for operational efficiency, the Giant Truss Trolley allows quick loading and secure transport of multiple barricade units. Its robust frame construction ensures stability during movement while reducing manual handling effort, improving setup speed and workforce productivity in demanding event environments.

Shipping Capacity (Trolly Loaded)

40 ft Container Capacity: 256 Units

20 ft Container Capacity: 128 Units

In-House Trolley System

Giant Truss barricades are stacked and transported using our proprietary heavy-duty trolley system. Designed for safe handling, optimized storage, and faster loading, it ensures efficient logistics and seamless deployment at large-scale event sites.
